Troy Bishopp
“The Grass Whisperer”
Bishopp Family Farm, Deansboro, NY
thegrasswhisperer.com

Troy and his family, operate a certified organic, 100% grass-fed, custom grazing operation that raises dairy heifers, grass-finished beef and background feeder cattle on 180 acres of owned and leased cool season pastures in the Mohawk Valley. Troy is a life-long learner that takes advantage of new knowledge, experiments, and uses past experience to bring a holistic approach to grazing planning and implementation. Instead of thinking in terms of grasslands or grazing as a singular thing, he helps farmers chart a course that pays attention to their personal and environmental goals as well as their profits.

Troy has earned many honors including the Pioneer Grazier’s Award.
