STRATEGIC VISION

Forefront of critical and creative inquiry into emerging global issues, including environmental resilience, technological change, material innovation, population growth and migration, natural resource use and stress, and social justice.
FOCUS AREAS

Increased diversity
Enhanced research
Innovative pedagogy
2. PhD/terminal degree program in each school
3. Support faculty-led curricular innovation
4. Provide cutting-edge facilities for each school
5. Increase graduate student enrollment
6. Support school and college research institutes

1. Implement Diversity Action Plan
Endowed chairs and professorships
Funds for interdisciplinary research
Facilities support (Downtown; Hendricks; Lawrence)
Naming of 3 new schools + top-tier research centers
Graduate fellowships + undergraduate scholarships
CHALLENGES

Culture shift
